Software Instructions

Illustra i600f – i800f

Firmware version 3.1.6 is compatible with the i600f – i800f cameras only. Prior to installing this firmware check the version of firmware currently installed on your Camera GUI. Use the camera web browser and navigate to: System Settings -> Firmware

Important Note: To facilitate upgrading Illustra Flex firmware on <u>multiple</u> cameras running 01.39 firmware in "batch mode" using Illustra connect, the upgradeUtilityForIllustraFlex.bat utility included in Package 2 must be used. From firmware 2.0.13 onwards, Illustra Connect can be used for single and multiple camera upgrades.

Firmware Upgrade Installation - There are 2 upgrade packages available:

- **Package 1 (web-update-Ver.3.1.6-20170912.opk)**

    o   Firmware file only.

    o   This can be used to upgrade cameras via the camera web interface.

- **Package 2 (IllustraFlexFirmwareUpgradeKit.zip)**

    o   (Includes: Firmware.opk, UpgradeProcedureForIllustraFlex.doc, upgradeUtilityForIllustraFlex.bat, curl32.exe)

    o   This can be used to upgrade multiple cameras via a DOS based Upgrade Utility Tool.

    o   After unzipping this package, follow the instructions in the UpgradeProcedure document.

NOTE: Ensure your camera does not lose power during the firmware upgrade process. Please refer to the **release notes** for upgrade instructions.

Firmware Installation

Camera firmware can be installed using either Illustra Connect or the utility in the camera web interface using Package 1.

NOTE: Insure that your camera does not lose power during the firmware upgrade process.

Please refer to the release notes for upgrade instructions.
